DETAILED ACTION

IDS

The non Patent Literature listed on the IDS was not considered since it was not submitted with the application.

Allowable Subject Matter

Claims 1-19 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art taken either singularity or in combination fails to anticipate or fairly suggest the limitations of the independent claim, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1, 2, 19, with the important feature being the conditional formula pertaining to the radius of curvature, the Abbe number, and focal length. Therefore claims 1-19 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Art Unit: 2873

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Sekita(U.S. Patent Pub. No. 2003/0218808), Sekita(U.S. Patent Pub. No. 2003/0112529), Sato(U.S. Patent No. 4,451,125) since they pertain to a wide angle lens with the same basic lens structure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy J. Thompson whose telephone number is (571) 272-2342. If the examiner can not be reached his supervisor, Georgia Epps, can be reached on (571) 272-2328.
